## WHO I AM?

I am in this field by vocation and I seek to constantly improve myself, facing and reinventing the challenges that an area as dynamic as computing may need.

I am a happy and friendly person, with adaptability. I also consider myself an organized person, who solves problems that arise quickly and appropriately. I am always willing and happy to learn new things to apply in my work.

## SKILLS

### Technical

Java

Spring Framework

JPA + Hibernate

SQL

JUnit

HTML

Thymeleaf

Bootstrap

CSS

Javascript

JQuery

Maven

SVN

Git

### General

Driving license

Good time management

Communication

Perfectionist

Teamwork

Adaptability

Growth mindset

Proactive

## WORK EXPERIENCE

07/2020 – Present

### Full Stack Developer

AYESA ADVANCED TECHNOLOGIES

Development of applications for use by the Junta de Andalucía, including both web applications and horizontal functionality modules, together with the development of the testing process. The points discussed could be summarized in the following points:

- \* Implementation and maintenance of Java applications using the Spring and Hibernate frameworks.
- \* Unit test development with JUnit using EclEmma to control coverage.
- \* UI design using HTML, CCS, Javascript and Thymeleaf.
- \* Design of migration processes with Pentaho Data Integration.
- \* Development of user documentation, analysis of application performance and improvement of these.

Java / Spring Boot / JPA + Hibernate / JUnit / Pentaho Data Integration

## PROYECTOS

10/2019 – 03/2020

### Upaudit

FINAL DEGREE PROJECT

Developed RESTFUL App (Front-end based on Angular and back-end on Spring Boot) to audit companies. Auditors can audit companies with questionnaires, manage audited company employees, manage Appoint-ments among other functionalities. The application is deployed and integrated in:

- \* Front-end: Firebase
- \* Backend-end: Heroku with JawsDB for MySQL integration
- \* Amazon Web Service S3: Generated PDFs and Images saved

Angular / Spring Boot / AWS S3 / Bootstrap / IText

## EDUCACIÓN

2015 – 2020

**Computer Science Degree in Information Systems**  
**Grade: 8.26725**

PABLO DE OLAVIDE UNIVERSITY

Business process management: 9.7 / Bioinformatics: 9.4 / Project engineering: 9.7 / Technology integration: 9.8 / Real-time information systems: 10 - **Matrícula de honor** / Advanced programming: 9.5 / Database architecture: 9.2 - **Matrícula de honor** / Final Degree Project: 9.3

## LANGUAGES

ENGLISH

06/2015 **First Certificate in English - B2**  
UNIVERSITY OF CAMBRIDGE

SPANISH - Native

## HOBBIES

I have various hobbies. On the one hand, I love sport and the ability to constantly improve that it gives me. I started playing basketball for a local team for 10 years, to continue going to the gym from college. I also like to enjoy my quiet moments, whether it's watching a movie or enjoying a good book, I especially like science fiction books.
